Hi Tom,

Just a heads-up that we will be opposing this request at the SWRCB and likely elsewhere.

This is a message from the State Water Resources Control Board

This message is to inform interested persons that, on April 1, 2016, the U.S. Bureau of Reclamation (Reclamation) submitted the attached Temporary Urgency Change Petition (TUCP) to request modification of Decision 1641 San Joaquin River flows and dissolved oxygen requirements. The TUCP will be discussed at the State Water Board's April 5, 2016 workshop on proposed operations of New Melones Reservoir. The State Water Board is conducting the April 5 workshop, which will begin at 1 p.m. or later, to solicit public input on the TUCP. Please note that no State Water Board action will be taken at the workshop; however, the State Water Board may provide direction to staff. The agenda for the April 5-6 Board Meeting is available here:
